

MECHANICAL INSTALLATIONS

MECHANICAL INSTALLATIONS

The original MII was established in 1984 and has grown to become one of the leading installation companies in the UK. We continue to work closely with our clients and drive further positive performance in this challenging sector. We believe that working on a wide range of project installations, repairs & maintenance and plant outages gives us the unique position of offering an individually tailored service which our clients demand to remain dynamic and cost effective.

A local company of strong history:

- 1984 Original establishment of Mii
- 1993 Development of Maintenance Capability
Awarded ISO 9001
- 2000 First formalised maintenance contract
Awarded ISO 14001
- 2001 Development of Pipe Work Capability
- 2003 Developed Electrical Installation Capabilities
World Record rebuild of No. 5 Blast Furnace
- 2004 First Facilities Contract
Awarded BS OHSAS 18001
- 2006 First Energy from Waste Plant
- 2009 Awarded BS OHSAS 18000:2007 Upgrade

MECHANICAL INSTALLATIONS

Installation Services

Using our comprehensive experience and knowledge in a wide range of installations, we work closely with clients to deliver bespoke solutions in the following areas of expertise:

- Installation of all types of plant and machinery.
- Removal of all types of plant and machinery and then reinstallation in other locations or countries.
- Provision of site management & supervisory personnel as well as all grades & disciplines of skilled tradesmen who can work on behalf of, or represent the client, as required.
- Full range of facilities management services including refurbishment.
- Electrical design and installation facility.
- Pipework design, fabrication and installation.
- Project management from design to manufacture as required.
